Save water
Tap
Shower timer
Efficient
Fridge
Water butt
Reduce
Showerhead
Watering can

Spot the difference

There are 4 differences in the image below, see if you can spot them

Spot the difference

1. The tap - turn the tap off when brushing your teeth/washing your hands

2. Plants - reuse leftover water to water your plants

3. Pipes - check for leaky pipes. Not only can this save water, but it will save you money too!

4. Dishwasher - only run your dishwasher and washing machine on a full load!
